PROFILE

Year-2 undergraduate student studying Electrical Engineering at City University of Hong Kong, majoring in Information Engineering.

EXPERIENCE

Undergraduate Assistant, CityUHK Architecture Laboratory for Arithmetic and Security (CALAS); Hong Kong SAR, China — 2026 — Present

- Researched accurate real-time AVT synthesis on edge hardware based on the quantised Apple's MobileCLIP model family.
- Studied regarding high-performance and configurable SW/HW co-design of post-quantum cryptography using the *CRYSTALS-Dilithium* algorithm.
- Acquired new knowledge in Architecture, such as *RISC-V*, and grew new skills using software such as *Vivado*.

Founder / CIO, BnB .Corp; Hong Kong, China — 2016 — Present

- A self-hosted company, started selling school Python course solutions (2016-2017)
- Provide free homework guidelines (2017-2024)
- Psychology consulting (算命) (2023)
- Provide exam revision courses (2022-2023)
- AI research (2024 - Present)

QA Intern, AIYouthLab; Beijing, China — 2026 Summer

- Taken the row of Quality Assurance under the Beijing distribution of 芸思智能 (AIYouthLab).
- Researched the potential and product requirements under the targeted market.
- Collected the basic information about the target features of the developing product.
- Participated in the product testing, testing engineering, and debugging contents, and output detailed bug reports.

Consulting Intern, Lux Scholar; Guangzhou & Shenzhen, China — 2025 Winter

- Advised two venture capital firms on investment opportunities in China's low-altitude economy through comprehensive analysis of market structure, growth potential, regulatory environment, technical feasibility, and company-level competitive dynamics.
- Structured and segmented China's low-altitude economy market into 24 sub-sectors by value chain and key use cases; led end-to-end analysis of the market demand from both Air-Taxi and cargo shipment.
- Conducted in-depth desk research and expert interviews with industry leaders and management teams to evaluate technology readiness, commercialisation timelines, and strategic positioning across technological progression as well as discovery of clients' demand.
- Built quantitative market sizing and 10-year forecast models incorporating cost curves and regulatory assumptions

Researcher, Shanghai Jiao Tong University; Shanghai, China — 2023 Summer

- Participated in a collaborative research project, *The Algorithm Underlying Information Technology*, optimising generative image algorithms to improve accuracy in *Stable Diffusion*.
- Worked in a team of three, each focusing on a distinct optimisation approach, and accomplished a joint research paper as the first author, titled *Personalizing Generative Data via Active Learning*.
- Acquired new knowledge in finance, AI theories, trends, and game theories through peer mentorship.
- Learnt basic-level linear algebra and multivariable calculus by self-learning.
- Participated in tutorials as a TA in the SJTU summer course 2023

Research Intern, City University of Hong Kong; Hong Kong SAR, China — 2023 Summer

- Attended lectures and researched under the guidance of Professor Cheng LIU, Department of Systems Engineering.
- Assisted with the research regarding *Digital Twinning in Modern Assets*.
- Responsible for writing a decision tree for the model analysis, as well as digital twinning models for analysis.
- Acquired new knowledge in the field of AI, and got in contact with computer-aided software, namely *ABAQUS*.

EDUCATION

City University of Hong Kong, Hong Kong SAR, China — Bachelor of Engineering, 2025 — Present

- Year-2 Class Representative 2026 of the INFE Major
- Executive committee of the *Electrical Engineering Honour Society*. (EEHS)
- Year-1 *Class Representative* 2025 of the Department of Electrical Engineering.
- Member of the *KLT-Hall9 Web development team*.
- Member of the *KLT-Hall9 Video editing team*.
- Member of *CALAS*.

UCLA, Los Angeles, United States of America, 2026 July
Fudan University, Shanghai, China — Summer Course, 2026 August
RDFZ, Beijing, China — Summer Course, 2023 August
Harvard Undergraduate AUSCAR Summit for Young Leaders in China

- Dormitory tuck shop owner.

Pui Kiu College, Hong Kong SAR, China — Primary & Secondary Education, 2018 - 2025

- Technical Support & Research Guidance Committee at *BioTech Club*.
- Member of the *Physics Club*.
- Direct Stage Manager of the *Stage Management Team*.
- Student-head & Leader of the *IT Team*.
- Member of the *English Debating Team*.
- Member of the *Chinese Culture Promotion Ambassadors*.
- Member of the *PI-Alliance*. (Math Team)
- Member of the *Remote-Controlled Vehicles Club*.
- Member of the STEM Club. (Science Team)
- Member of the *Chinese Debating Team*.
- CIO of *B&B Python*. (Later BnB Corp.)

Kiangsu & Checkiang Primary School, Hong Kong SAR, China — Primary Education, 2013 - 2018

- Founded *Blodge*. (later B&B Python)
- Founder and promoter of the *Student IT Co-Learning Scheme*.
- Member of the school choir

- Member of the school soccer team

SKILLS

GenAI, Signal Processing, Algorithms, Modelling, Computer Programming Language:

- Mandarin; (Mother language)
- English;
- Cantonese;
- Russian; (Learning)
- German; (Learning)
- Japanese (Learning)

AWARDS & VOLUNTEERING

- September 2026: GitHub Campus Expert, City University of Hong Kong
- August 2025: Top 20% Award (832/6169, Score = 1570.65), IEEE Xtreme 19.0 Hackathon. (October 2024, award given in August 2025)
- October 2025: IBM Student Ambassador, City University of Hong Kong.
- September 2025: Joined ACM as Student Member
- September 2024: Outstanding Volunteer of 2024, Hong Kong Volunteers Federation.
- June 2024: Golden (Out of Gold, Silver, Bronze) service award in Pui Kiu College for the assistance in technical assistance in IT.
- November 2024: Team Leader of the top 20 finalist team (11/149) in GT College - International Science Project Competition 2024.
- July 2024: Carbon Neutral STEM Engineer Environmental Ambassador, Hong Kong Association of Youth Development Sha Tin Branch.
- March 2024: Award of Excellence & Supreme Champion (小悦智馨), 4th Tencent LIGHT Technology Public Welfare Creation Camp.
- October 2023: Silver Medal (top 5% out of 2664 teams), LLM Science Exam, Kaggle.
- October 2023: AAAS-certified STEM coach, Pui Kiu College
- September 2023: Volunteer, the Food Bank Hong Kong
- August 2023: Bronze Medal (top 6% out of 6430 teams), Identifying Age-related Conditions, Kaggle.
- June 2023: Technician, Tsinghua University TUNA Association

- May 2023: Joined IEEE as Student Member
- March 2023: Social Media Designer, Hack United.
- February 2023: 2nd Place (Runner-up) in the 75th Hong Kong Schools Speech Festival 2022, Putonghua High School Boys.
- May 2022: Microsoft Learn Student Ambassador, Pui Kiu College
- May 2022: Google DevOps Campus Ambassador, Pui Kiu College
- March 2022: Site maintainer, speedrun.com
- May 2019: 2nd Place (Silver) in the 7th Bauhinia Cup & Commemoration of the 100th Anniversary of the 5-4 Movement Putonghua Speech Contest.
- September 2018: Volunteer, Mingxi Charity Foundation
- October 2016: 3rd Place (Second Runner-up) in the 68th Hong Kong Schools Speech Festival 2016, Putonghua High Primary Boys.

PUBLICATIONS

- *Making interactive, time-evolving 3D video models from 2D Video Feeds via AI Pipeline* (IEEE ICAIET 2026, August 2026), co-authored with Mr. Junming HUANG (City University of Hong Kong), Mr. Pak Shing YAN (Chinese University of Hong Kong (Shenzhen)), Mr. Bicheng LUO (Chinese University of Hong Kong), Mr. Qianru WANG (City University of Hong Kong, now at Hong Kong University of Science and Technology), Mr. Yiu Kit LIU (Hong Kong University of Science and Technology).
- *Feature Engineering for Speaker Characterization in Melodic Vocalizations* (IEEE ACAI 2025, December 2025), co-authored with Mr. Pak Shing YAN (Chinese University of Hong Kong (Shenzhen)), Mr. Yunqi WANG (City University of Hong Kong), Mr. Tsz Kin Andrew SONG (Xi'an Jiaotong-Liverpool University), Mr. Bicheng LUO (Chinese University of Hong Kong), supervised by Professor Dr. Chak Chung Ray CHEUNG (City University of Hong Kong).
- *Optimising Truss Bridge Model by Digital Twinning* (GTC-ISPC 2024, July 2024), co-authored with Mr. Bicheng LUO (Pui Kiu College, now at Chinese University of Hong Kong) and Mr. Pak Shing YAN (Pui Kiu College, now at Chinese University of Hong Kong (Shenzhen)), supervised by Mr. Pak Lam CHENG (Pui Kiu College). Special thanks to Prof. Cheng LIU (City University of Hong Kong) for consultation.
- *Personalizing Generative Data via Active Learning* (SCI Area-2, September 2023), co-authored with Mr. Junyi WANG (Shenzhen College of International Education, now at Cambridge University) and Mr. Yi DONG (Nanjing University), supervised by Professor Dr. Haifeng XU (The

University of Chicago) and Mr. (Now Dr.) Junjie CHEN (City University of Hong Kong, now at Hong Kong Baptist University).

RESEARCHES

- (Report, June 2026) The Histopathological Progression of Viral Hepatitis: From Acute Inflammation to Hepatocellular Carcinoma [Pak Shing YAN, Yule WANG, Yueming CHEN]
- (Research, March 2026) Identify Diabetes by Tongue Recognition [Pak Shing YAN, Yueming CHEN)
- (March 2026) MCHIGM's Guide to AI Prompting [Yueming CHEN]
- (May 2025) A guide to AI in 1 hour [Yueming CHEN]
- (GTC-ISPC 2024, July 2024) Identify Cancer Risk via Tongue Recognition [Pak Shing YAN, Yueming CHEN, Bicheng LUO]
